Wrist Watch

The Watch Store

Description

A watch is a portable timepiece intended to be carried or worn by a person. It is designed to keep a consistent movement despite the motions caused by the person's activities. A wristwatch is designed to be worn around the wrist, attached by a watch strap or other type of bracelet, including metal bands.

Gold Ring

Judge & Tanaka Jewelers

Description

Gold is the only naturally occurring yellow metal in existence. Because it is naturally soft, gold must be alloyed with another metal to increase its durability. Men's gold rings are measured in karat purity and are most frequently seen in 10K gold, 14K gold and 18K gold varieties.
